

World Class **Air Ambulance**

Medical Evacuation Service

ABOUT US

World Class Air Ambulance Medical Evacuation Service is established in 6/57, Nehru Nagar, near Vimhans Hospital New Delhi-110065, India & 149/Ka, Shah Ali Bag, Mirpur-1, Dhaka, Bangladesh. This ICU Transport Resort Provider has branches in Ranchi, Dhanbad, Varanasi, Patna, Chattagram & Sylhet. Now at present, the director's of this world-level emergency and medical service provider is Mr. Birendra Mishra who has a great experience in these sanatorium transport services for more than 7 years & A M R Mazumder Liton who has also a great experience in this sector more than 5 years.

Air Ambulance

World Class Air Ambulance Medical Evacuation Service provides all the possible ways of emergency and non-emergency medical transportations. All classes of people get benefits to shift their respective loved ones' life from one place to another place to save a life. Air Charter, King B-200, King C-90, and Jet Aircraft are used for Private Air Ambulance.

Train Ambulance

Train Medical Transport Service in our country that the people say, "Train Ambulance." This service in India is provided by private emergency service providers.

Generally, Fast Trains are chosen for the medical evacuation service because it takes a lower time than others and the facilities are more comfortable than others. Rajdhani & Duronto are fast trains in India. This railway track service where the medical team is the same as the aircraft. Very soon it will be started Bangladesh also.

Commercial Stretchers

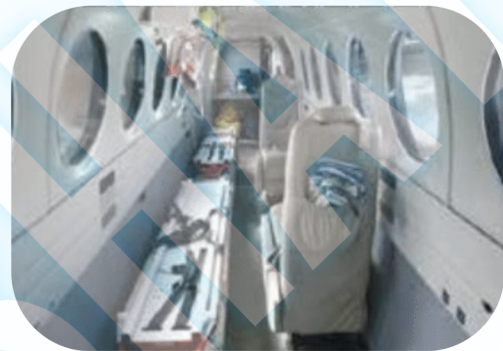

Commercial Airways Scoop Stretcher or Commercial Stretcher is one of the most low costing air ambulance services. Generally, commercial airlines such as Air India, Air Asia, Vistara, IndiGo, SpiceJet, Go Air, US Bangla, Biman Bangladesh Airline etc. are used for this commercial air ambulance service. World Class provides this commercial stretcher fitting service to all the societies of people in India, Bangladesh & all over the world. Infectious and Highoxygen required patients are prohibited in some cases.

Road Ambulance

Road Ambulance Service is categorized into two forms. The first one is ACLS and the second one is BLS. ACLS stands for Advanced Cardiac Life Support Road Ambulance (Force Vehicles, Mercedes Banze, Hiace) whereas BLS stands for Basic Life Support Road Ambulance (Tavera, Omni, Marshal & Hiace). World Class Ground Ambulance Service provides 10 plus road emergency transport services in India & Bangladesh. All of them are well equipped with emergency medical setup.

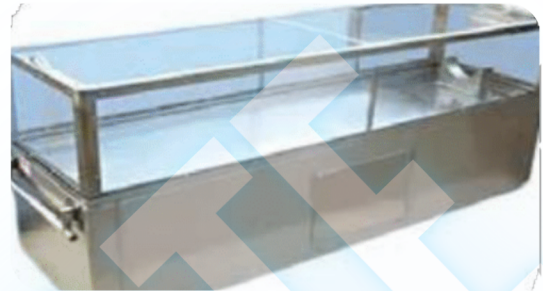

Dead Body Transfer & Coffin Box

We are proud of our motherland. Today our nationalities are spread out every corner of the world and they are acquiring name, fame & wealth.

Growing population, Fluctuating GDP, and dissimilarity of the economy of India where there are lots of people work at their birth-place or having gone out of their native places. World Class offers the sacred body transfer service in India & Bangladesh or abroad for all time.

Corpse Freezer Box & Embalming Service

Birth and Death are the mutual truths of living things where everyone has to depart from the earth after the completion of his life-tenure. Whether he is rich or he is poor, death always invites all to get salvation. The human being is only the puppet in the hands of Almighty. Here, World Class Air Ambulance Medical Evacuation Service facilitates the entire non-living medical privileges and conveniences to people all over India & Bangladesh.

HOW IT WORKS

1

Our medical call attendants pick the call up and understand the patient's problems. After that our medical personnel describes our service privileges and transportation.

2

The guests understand the whole thing and put their medical convenience requirements towards us. Having to check the update and live location of air charter medical flight after that we ensure the booking.

3

Before or during the booking time, our medical personnel talk to the patient's consultant doctors and visit the patient. On the other hand, our ICU team is ready in advance for this service

4

After the booking confirmation, our ICU expert team visits the patient's hospital and brings him or her to the nearest airport where our medical flight is landed or to land soon.

5

Road Medical Journey is based on Cardiac Care Life Support Advanced Road Ambulance Service, where our medical team conducts this journey under the bed-2-bed service system.

6

The destination airport, Cardiac Care Ambulance keeps waiting for us as we land, they pick up and complete the remaining journey fast. We shift the patient to the destination hospital.

Thank You !
